

Rik Bolink from Interseco about REASeuro:

"Interseco's activities are a.o. provide security for people with a kidnap risk, e.g. caused by their position, reputation and/or fortune. Furthermore, we offer training programs for professional executive and VIP drivers. REASeuro also takes care of a part of our training 'persons escort'."

Besides that Interseco enlists REASeuro for preventative checks of locations during events. Rik Bolink: "The type of events you should think of is e.g. a shareholders meeting of a big company. In that case we ask REASeuro to execute the 'preventative bomb check' with the assistance of explosive detection dogs."

The experiences we have with REASeuro are positive. It is a professional partner staffed with people with whom it is a pleasure to work together. Furthermore, we always receive a detailed report about the execution of a specific order. In short, you can trust them to do their job. 'Act normally, that is already crazy enough', that is applicable for REASeuro. 'The same goes for us'. We value their commonness and their professionalism."
